Subject: P2022/1050

Hi Sharon

I would like to provide the following comments in respect to planning application P2022/1050.

With reference to Roger Parry & Partners Drawing MZ-829-01, the vehicular access is shown crossing footpath Hanmer 8 which passes through the proposed site. We would therefore request that the vehicular access does not interfere with the footpath and the users of the footpath. There should be no change of ground level or disturbance of ground condition underfoot, unless improvements are made to benefit users, and no barriers should be placed across the path. If works are likely to interrupt safe passage of users whilst ongoing then a temporary Traffic Regulation Order (TRO) will be needed to ensure the safety of the public. Going forward the safety of users of the path should be taken into account when vehicles are accessing the slurry store.

Regards Alison
