Hi Sarah,

The trees are over 6ft, about 5yrs pot grown.
They already had fruit on whilst we were planting them so no reason why we wouldn't have more fruit next year.

If you let me know the maximum file size I can attempt to compress the PDFs of the photos to fit if that would help?

Thanks again for your help

Jim

Hi Jim,

Gavin successfully send all of the documents, but thank you for sending the link just in case. I was only able to upload one of the two very large photo documents onto our system due to the number of photos.

On the photograph showing the newly planted sloping area next to the building, what age are the trees that have been planted please and when are they expected to start producing fruit?

Thanks

Sarah.

Hi Sarah,

Here is a link to all of the supplemental files that Gavin tried to send.

x3 PDFs

fruit & nut trees,

other trees

screen and upper orchard

enhancement plan

and x3 aerial photographs showing various areas of planting etc.

<https://drive.google.com/drive/folders/1F7Q4HN-jGsjpqdcRwK4c25M7XBnjELoc?usp=sharing>

Apologies for the size, I have compressed them a lot, it's just that there are a lot of images.

I wanted to be very thorough with my application and make the scale of our planting clear.

If I have missed anything or you have any issues opening the files, please let me know.

Thanks again,

Jim

Hi Sarah,

I will make sure that you have those,

I was obviously far too sparse with information last time.

The next set of documents will show the locations and types of all of our fruit and nut trees, not only the ones within the orchards.

I will make sure it is very comprehensive.

Thanks again,

Jim

Hi Jim,

Thanks for letting me know. Any photos you can send of the proposed/partially planted orchard along with the supporting information would be useful.

Thanks

Sarah.

Hi Sarah,

Just to let you know, I am working on more thorough information to support my application and have now also planted up the top orchard with large (6ft+) pot grown fruit trees (these are already producing fruit) . I have also surrounded the store with fast growing evergreen bushes and blackthorn trees which will soon completely obscure it.

I hope to have it with you no later than Monday.

Thanks again for your help,
Jim

Hi Jim,

I've already uploaded them onto the file, but they can be superseded by a different set if needed. If the store can't be sited within the orchard itself the immediately adjacent to it, in as hidden a position as possible, would be fine. If you wish to supply photographs to support the chosen location then that may be helpful too.

Thanks

Sarah.

Subject: LL207AG Orchard store

Hi Sarah,

Re; moving the orchard store down to the orchard.

I measured up on google maps and it should fit but I am a little worried that I panicked this morning and have been too hasty.

I will be up at the site tomorrow and I can measure up and make sure that it will actually work.

I don't want to agree to do something and then find out I can't achieve it.

Could you please put the documents I sent today to one side whilst I finalise and confirm all measurements?

Apologies again for sending us in circles, I want to be as compliant as possible and get this resolved asap

Thanks again,
Jim
