3. No facing or roofing materials shall be used other than those detailed on the application form and within the approved application documentation.
4. No part of the development shall commence until the name and contact details of the Ecological Clerk of Works has been submitted to the Local Planning Authority.
5. The development shall be carried out in strict accordance with the findings and recommendations contained within the Bat and Nesting Bird Survey as carried out by Enfys Ecology and dated 09/11/2022 approved as part of this application. The mitigation and compensation measures hereby approved shall be fully implemented prior to first use of the development.
6. Notwithstanding the approved plans, the proposed roof shall be lined in Bitumen 1F non-breathable membrane.
7. Should the works not commence within one year of the date of this approval an updated Bat Roost Assessment, as carried out by a qualified ecologist, is required to be submitted to and approved in writing by the Local Planning Authority. The report shall include an Ecological Method statement demonstrating / identifying any measures of protection / compensation / mitigation. The recommendations as approved shall be implemented in strict accordance with timescales to be agreed before any part of the development commences on site.
8. Prior to first use of the development a suitable grease trap shall be provided in order to prevent entry into the public sewerage system of matter (cooking fats, oils and grease etc.) likely to interfere with the free flow of the sewer contents, or which would prejudicially affect the treatment and disposal of such contents. The grease trap shall thereafter be permanently retained in a working condition.
9. No part of the development shall commence until details of the means of ventilation for the extraction and dispersal of cooking smells, including details of its method of construction, odour control measures, its appearance and finish have been submitted to, and approved in writing by the Local Planning Authority. The system design shall have regard to the guidance set out in EMAQ Report - Control of Odour and Noise from Commercial Kitchen Exhaust Systems (Update to the 2004 report prepared by NETCEN for DEFRA). The approved details shall be fully implemented prior to first use of the development and shall thereafter be permanently retained in an effective condition.

Note(s) to applicant

The applicant is advised that some public sewers and lateral drains may not be recorded on our maps; some sewers were originally privately owned and were transferred into public ownership by nature of the Water Industry (Schemes for Adoption of Private Sewers) Regulations 2011. The presence of such assets may affect the proposal. In order to assist us in dealing with the proposal the applicant may contact Dwr Cymru Welsh Water. Under the Water Industry Act 1991 Dwr Cymru Welsh Water has rights of access to its apparatus at all times.

The applicant may also need to apply to Dwr Cymru / Welsh Water for any connection to the public sewer under S106 of the Water industry Act 1991. If the connection to the public sewer network is either via a lateral drain (i.e. a drain which extends beyond the connecting property boundary) or via a new sewer (i.e. serves more than one property), it is now a mandatory requirement to first enter into a Section 104 Adoption Agreement (Water Industry Act 1991). The design of the sewers and lateral drains must also conform to the Welsh Ministers Standards for Gravity Foul Sewers and Lateral Drains, and conform with the publication ""Sewers for Adoption""- 7th Edition. Further information can be obtained via the Developer Services pages of www.dwrcymru.com

In accordance with Planning Policy Wales (Edition 11) and Technical Advice Note 12 (Design), the applicant is advised to take a sustainable approach in considering water supply in new development proposals, including utilising approaches that improve water efficiency and reduce water consumption. We would recommend that the applicant liaises with the relevant Local Authority Building Control department to discuss their water efficiency requirements.

Our response is based on the information provided by your application. Should the proposal alter during the course of the application process we kindly request that we are re-consulted and reserve the right to make new representation.

If you have any queries please contact the undersigned on 0800 917 2652 or via email at developer.services@dwrcymru.com

All works in relation to the implementation of this permission, including deliveries to and /or leaving the site, should be undertaken only between the hours of 07.30 to 18.00 Monday to Friday, 08.00 to 14.00 on a Saturday, and at no time on a Sunday or a Bank Holiday. Outside these times, any works which are audible beyond the site boundary have the potential to cause unreasonable disturbance to neighbouring premises.

The applicant is advised that the Council has the option to control construction noise by serving a Control of Pollution Act 1974, Section 60 Notice where deemed necessary, and failure to comply with such a Notice can result in prosecution.

The applicant is further advised that any complaints received relating to noise of any type from the development may also be investigated using the Council's Standardised Procedure for Dealing with Noise Nuisance Complaints. This is done under the Statutory Nuisance provisions provided within the Environmental Protection Act 1990, and legal action may be taken where appropriate.

The applicant must adhere to the times given above wherever possible. If, however, there are urgent or unavoidable circumstances requiring work outside of the specified times, permission to proceed may be sought by contacting Environmental Health & Housing Standards at healthandhousing@wrexham.gov.uk or 01978 292040. Please use the same contact details for any other enquiries regarding construction / demolition site noise.

The Applicant is advised that under the dust from construction and / or demolition activities can be judged to be causing a statutory nuisance to neighbouring properties. A legal notice can be served requiring that any dust nuisance is abated, and failure to comply with the requirements of the notice can result in prosecution. The applicant should contact the Council's Environmental Health & Housing Standards Team on healthandhousing@wrexham.gov.uk or 01978 292040 for further advice and information.

Burning of waste generated from construction activities is not considered to be an appropriate method of disposal and action may be taken as follows:

- Under the Environmental Protection Act 1990 anyone found disposing of construction site waste by burning is likely to be in breach of their duty of care with regard to waste disposal;
- Under the same Act an abatement notice may be served where smoke is judged to be causing a nuisance to neighbouring properties. Failure to comply with the requirements of the notice can result in prosecution;
- Under the Clean Air Act 1993 it is an offence for a commercial activity to burn anything that gives rise to dark smoke.

To prevent offences under the above named Acts there should be no bonfires on the site, to include the prohibition of the burning of cleared vegetation. The applicant should contact the Council's Environmental Health & Housing Standards Team on healthandhousing@wrexham.gov.uk or 01978 292040 for further advice and information.
