Annwyl/ Dear Mr Greenland,

BWRIAD / PROPOSAL: CONSTRUCTION OF SWIMMING POOL

LLEOLIAD / LOCATION: ERBISTOCK HALL, ERBISTOCK, WREXHAM, LL13 0DE

Thank you for consulting Cyfoeth Naturiol Cymru / Natural Resources Wales about the above, which we received on 24.05.2022.

We have concerns with the application as submitted because inadequate information has been provided in support of the proposal. To overcome these concerns, you should seek further information from the applicant regarding the supply, treatment and discharge of water from the swimming pool. If this information is not provided, we would object to this planning application. Further details are provided below.

Protected Sites and Foul drainage

We note the application site is within the catchment of the River Dee and Bala Lake Special Area of Conservation (SAC). As you are aware, on the 21st January 2021, we published an evidence package outlining phosphorus levels for all river SACs across Wales. As part of this package, we issued a [Planning Position Statement](#), in which we advised that any proposed development that might increase the amount of phosphate (or phosphorus) within a river SAC catchment could lead to damaging effects to the SAC. Therefore, such proposals should be screened through a Habitats Regulations Assessment (HRA), to determine whether they are likely to have a significant effect on the SAC. We have also issued [Planning Advice](#) (May 2021) which gives specific advice in respect of foul drainage arrangements for new developments.

We note from the information submitted that the proposal involves the installation of a swimming pool, however no details have been submitted in regarding the supply, treatment, or discharge of water from the pool.

We therefore advise that further information is submitted in relation to the following -

- Source of water supply for the pool.
- Level of water treatment including details of any chemical or physical treatment proposed.
- Method and location wastewater discharge.

On receipt of this information, we will review our position and advise you accordingly.

Protected Species

We note that there is no information about protected species is included with the application and, therefore, are assuming that your Authority has screened the application and concluded that there is not a reasonable likelihood of protected species being present.

Other Matters

Our comments above only relate specifically to matters included on our checklist, *Development Planning Advisory Service: Consultation Topics* (September 2018), which is published on our [website](#). We have not considered potential effects on other matters and do not rule out the potential for the proposed development to affect other interests.

We advise the applicant that, in addition to planning permission, it is their responsibility to ensure they secure all other permits/consents/licences relevant to their development. Please refer to our [website](#) for further details.

If you have any queries on the above, please do not hesitate to contact us.

Yn gywir / Yours sincerely

Sara Thomas
