

Scope of works for the Installation of a single CCTV Camera at HSBC UK Wrexham.

Document date 22/08/2019

Rev -

Site Address:

HSBC UK Bank plc,
17 – 19 Regent Street,
Wrexham,
LL11 1RN

1.0 Introduction

1.01 The proposals can readily be broken-down into the following components:

- (i) Installation of one new CCTV camera.

2.0 Design Concept

2.01 The bank is currently planning to improve the level of security at this branch. Therefore, it is proposed to install one new CCTV camera as a deterrent to anti-social behaviour, as well as aiding in detection and prosecution.

3.0 Scope of Works

- 3.01 4No fixing holes will be drilled into the concrete column, approx. 85mm from centre to centre of fixing. 1No 25mm diameter hole will be drilled into the concrete column for the power and data cable to run from the CCTV camera to the comms cabinet located in branch
- 3.02 4No wall plugs will be inserted into fixing holes, and mounting bracket will be secured to the concrete column using 4No. M4 screws.
- 3.03 1No CAT 6a power and data cable is to be connected to the CCTV camera and is to be routed internal through the branch using existing wire trunking and is to run to the comms cabinet.
