

Sewer Plan

LEGEND(Representative of most common features)

Waste network

- Foul chamber
- Surface water chamber
- Combined chamber
- Combined sewer overflow
- Special purpose works
- Treatment works
- Pumping station
- Foul sewer
- Surface water sewer
- Combined sewer
- Private sewer subject to Sect. 104 adoption agreement
- Private Sewer Transfer
- Lateral Drain
- Inspection Chamber
- Outfall
- Lamphole
- Storm Overflow
- Rising main
- Gravity sewer
- Private sewer

NB: Sewer symbol colour indicates the type.

RED - Combined
 GREEN - Surface Water
 BROWN - Combined
 Brown - Combined S15 sewers (for indicative purposes only)

Notes:

Whilst every reasonable effort has been taken to correctly record the pipe material of DCWW assets, there is a possibility that in some cases pipe material (other than Asbestos Cement or Pitch Fibre) may be found to be asbestos cement (AC) or Pitch Fibre (PF). It is therefore advisable that the possible presence of AC or PF pipes be anticipated and considered as part of any risk assessment prior to excavation.

Deli-Cyrus Oryngberg ("Company") gives the information as to the position of its underground apparatus by way of general purpose only and on the strict understanding that it is based on the best information available and no warranty as to its correctness is relied upon in the event of excavations or other works made in the vicinity of the Company's apparatus. The onus of locating apparatus before carrying out any excavations was entirely on you. The information which is supplied by the Company is done so in good faith and is based on the best information available to the Company. In 1991 I based upon the best information available and, in particular, but without prejudice to the generality of the foregoing, it should be noted that the records that are available to the Company may not disclose the existence of a water main, service pipe, sewer, lateral drain or disposed man and any associated apparatus laid before 1 September 1989, or, if they do, the location may not be accurate. It must be understood that the furnishing of this information is entirely without prejudice to the provision of the New Roads and Street Works Act 1991 and the Company's right to be compensated for any damage to its apparatus.

Service sites are not necessarily shown but their existence should be anticipated.

**EXACT LOCATIONS OF ALL APPARATUS
TO BE DETERMINED ON SITE.**
