Dear Sir/Madam,

**BWRIAD / PROPOSAL: NEWID DEFNYDD O GANOLFAN ARDDIO I FFERYLLFA
DOCTORIAID / CHANGE OF USE FROM MARKET GARDEN CENTRE TO DOCTORS
DISPENSARY**

**LLEOLIAD / LOCATION: THE WILLOWS, STATION ROAD, BANGOR ISYCOED,
WREXHAM, LL13 0AB**

Thank you for consulting Cyfoeth Naturiol Cymru / Natural Resources Wales about the above, which we received on 13th September 2022.

We have no objection to the proposed development as submitted and provide the following advice.

PSAC

We note the application site is within the catchment of the River Dee and Bala Lake Special Area of Conservation (SAC). As you are aware, on the 21st January 2021, we published an evidence package outlining phosphorus levels for all river SACs across Wales. In line with our [Planning Advice](#) (July 2022), under the Habitats Regulations, Planning Authorities must consider the phosphorus impact of proposed developments on water quality within SAC river catchments.

However, the application as submitted is unlikely to increase the amount of phosphorus entering the catchment. Therefore, we are satisfied that the proposal is not likely to have a significant effect on the River Dee and Bala Lake SAC.

Flood Risk:

Our Flood Risk Map confirms the application site lies entirely within Zone C1 of the Development Advice Maps (DAM) as contained in TAN15 and the FMfP identifies the

application site to be at risk of flooding and falls into Flood Zone 3 (Rivers) and within the TAN15 Defended Zone (Rivers).

Given the scale and or nature of the proposed development (and in the absence of a flood consequences assessment) we consider the proposals could be acceptable, subject to the developer being made aware of the potential flood risks and advised to install flood-proofing measures as part of the development.

In areas at risk of flooding, we recommend that consideration be given to the incorporation of flood resistance/resilience measures into the design and construction of the development. These could include flood barriers on ground floor doors, windows and access points, implementation of suitable flood proofing measures to the internal fabric of the ground floor and locating electrical sockets/components at a higher level above possible flood levels.

We refer the applicant to our [website](#) for further advice and guidance is available. Additional guidance including the leaflet "Prepare your Property for flooding" can be found [here](#).

The developer can also access advice and information on protection from flooding from the ODPM publication 'Preparing for Floods: Interim Guidance for Improving the Flood Resistance of Domestic and Small Business Properties', can be found [here](#)

Protected Species

We note that there is no information about protected species with the application and, therefore, are assuming that your Authority has screened the application and concluded that there is not a reasonable likelihood of protected species being present.

Protected Sites:

Special Area of Conservation (SAC)

The application is located within 382m of the River Dee and Bala Lake SAC. From the information provided, we consider that the proposal is not likely to have a significant effect on the SAC. This is due to there being no pathways evident for the development to impact upon the SAC.

Our advice may change should modifications be made to the proposed development prior to the determination of the application. If there are any changes to the proposed development which may affect the consideration of potential environmental impacts, please consult us again before you determine the application.

Site of Special Scientific Interest (SSSI)

We have considered the information submitted in support of the above application. Based on the information submitted, we consider that the proposed development is not likely to damage the features for which River Dee SSSI is of special interest.

Other Matters

Our comments above only relate specifically to matters included on our checklist, *Development Planning Advisory Service: Consultation Topics* (September 2018), which is published on our [website](#). We have not considered potential effects on other matters and do not rule out the potential for the proposed development to affect other interests.

We advise the applicant that, in addition to planning permission, it is their responsibility to ensure they secure all other permits/consents/licences relevant to their development. Please refer to our [website](#) for further details.

If you have any queries on the above, please do not hesitate to contact us.

Yn gywir / Yours faithfully

Rachael Burke
