RE: PROPOSED EXTENSION, P 2022 0369 – UNIT 5 DAVY WAY, LLAY INDUSTRIAL ESTATE, LL12 0PG

Having reviewed the proposed extension, we can confirm that we have no plans to employ more people beyond our current staffing levels with the planned building of a new extension.

We require the new building extension in order to move the existing in-house manufacturing facilities to the new area so that the current space can be better utilised for the warehousing of parts/components and for the storage of necessary records.

We hope the above information will allow you to look favourably on our request for planning permission to be granted in order to proceed with the required extension.

Thank you.

For Hayakawa International (UK) Ltd

Devinder Bansal
Director
