

9 Reasons To Choose

- 1. COLOUR AND STYLE**
Residence 9 is available as standard in 23 carefully curated colours, with the option of more colours by special request or to be sprayed in any RAL colour to match your favourite paint.

2. 9 CHAMBER DESIGN

Residence 9 is engineered to meet current and anticipated future standards. Other window frames are typically 3 or 5 chambers and are usually 70mm wide. Residence 9 is made to CEN A Wall thickness and has 9 chambers and is 100mm wide, resulting in superior thermal, acoustic, strength and security performances.

3. SAFE AND SECURE

Residence 9 is made to CEN A wall thickness. This is the highest classification in Europe. Together with intelligent design details and screw retention reinforcements, locks and hinges are secured firmly into position. Residence 9 is also specifically designed to accommodate the additional weight of triple glazed units, allowing heavy duty hinges to fit and operate perfectly. A night vent option is also available.

GEORGIAN BAR

Residence 9 has beautifully bespoke sections that typically replicate deep decorative detailing inside and the chamfered putty line outside. With the Residence 9 Georgian Bar you can recreate the pattern of the original windows to preserve your home's character or add new personality with the flair of designing your own patterns.*

WEATHERBAR/MULLION STIFFENER

Old timber windows often had a raised moulding that ran horizontally or vertically, this bar looked distinctive and gave the windows depth and character. The bar's purpose was to shed dripping water and to increase the strength of the mullion, that's why we recreated this optional feature with Residence 9, time served traditional performance and aesthetics.

The beauty and character of timber, but without the maintenance! The epitome of high-end performance windows.

The flush sash exterior is timeless and all the glass sight-lines are perfectly equal providing symmetry and style not available in other window systems. The internal shape and depth is completely authentic and gives an elegant and distinctively deep appearance.

Your Residence 9 windows, doors and orangeries are not only stylish, they will withstand the test of time too. They include state of the art design features and champion British craftsmanship using time honoured traditions and modern manufacturing processes. With a range of splendid styles and configurations, Residence 9 allows you to create an individual design statement for your home.

TRADITIONAL CILL DETAIL

Old timber cills were deep and often aligned with a course of bricks. The Radlington Cill is the modern interpretation of a timber cill, designed to authentically accompany your Residence 9 windows and doors so you can recreate that stunning traditional look in both modern and period homes.

AUTHENTIC BUTT HINGE

Butt Hinges can assist in retaining the original timber window aesthetic or recreating as a new feature. Choose from working butt hinges or dummy butt hinges. Choose hinges also have the added advantage of a perfectly clear opening, which can be an ideal solution for a perfectly clear window.
