Dear Andrew Logan

Re: Wales and West GCN mitigation / compensation land - Wrexham

Dear Andrew,

Thank you for inviting us to tender for the mitigation land for Wales and West at their Wrexham development.

We are very interested in this opportunity and please consider this letter as a very strong expression of interest in regards to securing the contract for the future management and monitoring of the GCN compensation area.

We are very happy to work with Wales and West, NRW, WBC and yourself in regards to the future management and monitoring of this site.

Kind regards,

Mandy Cartwright
North Wales Officer
Amphibian and Reptile conservation Trust
