Dear Sir/Madam,

PROPOSAL: REMOVAL OF CONDITION 05 OF PLANNING PERMISSION P/2018/0194

LOCATION: COLLIERS PARK CHESTER ROAD GRESFORD

Thank you for consulting Cyfoeth Naturiol Cymru / Natural Resources Wales about the above, which we received on 29th July 2022.

We have no comments to make on the discharge of condition 5 of the above permission, as we did not request these conditions in our original response.

Protected Sites

As you are aware, on the 21st January 2021, we published an evidence package outlining phosphorus levels for all river SACs across Wales. In line with our [Planning Advice](#) (July 2022), under the Habitats Regulations, Planning Authorities must consider the phosphorus impact of proposed developments on water quality within SAC river catchments. We therefore advise you to consider whether the proposals, as submitted, would increase the volume of foul discharge from the site in planning terms.

For further information, please refer to our Planning Advice. Ultimately, it is for your Authority to consider to what extent you treat this advice as a material consideration in the context of the current application. If you determine that NRW's Planning Advice is a material consideration to this application, then you will need to consider the Habitats Regulations and screen the proposal accordingly.

Other Matters

Our comments above only relate specifically to matters included on our checklist, *Development Planning Advisory Service: Consultation Topics* (September 2018), which is published on our [website](#). We have not considered potential effects on other matters and do not rule out the potential for the proposed development to affect other interests.

We advise the applicant that, in addition to planning permission, it is their responsibility to ensure they secure all other permits/consents/licences relevant to their development. Please refer to our [website](#) for further details.

If you have any queries on the above, please do not hesitate to contact us.

Yours faithfully

Ruth Prichard
