

Re McDonalds planning application

Good morning

I'm writing to voice concern regarding the application by McDonalds to build a restaurant on land on Plas Coch Road Wrexham I'm a father of three who has lived nearby for over 20 years.

I have a number of concerns..

Traffic congestion.., this has got progressively worse and will obviously become worse again with the larger volume that this will create Anti social

behaviour..,obviously McDonalds attracts young people, both by car and foot , they congregate outside and around , it is inevitable that this will create more antisocial

behaviour in our community Encouraging bad health near a large primary school

Finally as a dog walker I notice how much litter is generated by these

establishments... the amount of litter already in country lanes surrounding Plas Coch is obscene , let alone the amount created by another... you only have to look at the litter around McDonalds Wrexham town centre or McDonalds Chirk to see how much of an issue this is .

I would urge you to think about this seriously as I think the impact on my community would be vast

Yours sincerely

Simon Durnell
