Dear Sir/Madam,

PROPOSAL: VARIATION OF CONDITION 2 OF P/2020/0279 TO AMEND DESIGN

LOCATION: LAND TO THE REAR OF, 5 AND 6, NEW HOUSE LANE, PENTRE, WREXHAM, LL14 5AW

Thank you for consulting Cyfoeth Naturiol Cymru / Natural Resources Wales about the above, which we received on 04/07/2022.

We have no objection to the proposed development as submitted and provide the following advice.

Protected Sites

We note the application site is within the catchment of the River Dee and Bala Lake Special Area of Conservation (SAC). As you are aware, on the 21st January 2021, we published an evidence package outlining phosphorus levels for all river SACs across Wales. As part of this package, we issued a [Planning Position Statement](#), in which we advised that any proposed development that might increase the amount of phosphate (or phosphorus) within a river SAC catchment could lead to damaging effects to the SAC. Therefore, such proposals should be screened through a Habitats Regulations Assessment (HRA), to determine whether they are likely to have a significant effect on the SAC.

We note this is a section 73 application to vary condition 2 from planning permission P/2020/0279. As such, even though the development proposed was judged to be acceptable in principle when the original permission was granted, that decision predates the publication of our evidence package. We therefore advise that you will need to consider the implications of this as part of your determination of this application. For further information, please refer to the [Planning Advice](#) on our website. Ultimately, it is for your Authority to consider to what extent you treat this advice as a material consideration in the context of the current application. If you determine that NRW's Planning Advice is a material consideration

to this s73 application, then you will need to consider HRA and screen the proposal accordingly.

Protected Species

We note that there is no information about protected species with the application and, therefore, are assuming that your Authority has screened the application and concluded that there is not a reasonable likelihood of protected species being present.

Other Matters

Our comments above only relate specifically to matters included on our checklist, *Development Planning Advisory Service: Consultation Topics* (September 2018), which is published on our [website](#). We have not considered potential effects on other matters and do not rule out the potential for the proposed development to affect other interests.

We advise the applicant that, in addition to planning permission, it is their responsibility to ensure they secure all other permits/consents/licences relevant to their development. Please refer to our [website](#) for further details.

If you have any queries on the above, please do not hesitate to contact us.

Yours faithfully,

Tristan Williams
