Dear Mr Greenland,

BWRIAD / PROPOSAL: CONVERSION OF OFFICES TO DWELLING,
ASSOCIATED INTERNAL WORKS, NEW BOUNDARY
WALL AND WORKS TO FORECOURT

LLEOLIAD / LOCATION: RUABON RAILWAY STATION, STATION ROAD,
RUABON, WREXHAM, LL14 6DL

Thank you for consulting Cyfoeth Naturiol Cymru / Natural Resources Wales about the above, which we received on 19/05/2022.

We have concerns with the application as submitted because inadequate information has been provided in support of the proposal. To overcome these concerns, you should seek further information from the applicant regarding foul drainage. If this information is not provided, we would object to this planning application. Further details are provided below.

Protected Sites and Foul Drainage

We note the application site is within the catchment of the River Dee and Bala Lake Special Area of Conservation (SAC). As you are aware, on the 21st January 2021, we published an evidence package outlining phosphorus levels for all river SACs across Wales. As part of this package, we issued a [Planning Position Statement](#), in which we advised that any proposed development that might increase the amount of phosphate (or phosphorus) within a river SAC catchment could lead to damaging effects to the SAC. Therefore, such proposals should be screened through a Habitats Regulations Assessment (HRA), to determine whether they are likely to have a significant effect on the SAC. We have also issued [Planning Advice](#) (May 2021) which gives specific advice in respect of foul drainage arrangements for new developments.

We note from the information submitted that the conversion of offices to a three bedroomed dwellinghouse may have the potential to increase the amount of phosphorus being discharged from the site. We therefore advise that further information is submitted to clarify the current planning use of the site, the period of time for which it has been vacant and the occupancy rate during the previous office use. On receipt of this information we will review our position and advise you accordingly.

Protected Species

We note that there is no information about protected species with the application and, therefore, are assuming that your Authority has screened the application and concluded that there is not a reasonable likelihood of protected species being present.

Other Matters

Our comments above only relate specifically to matters included on our checklist, Development Planning Advisory Service: Consultation Topics (September 2018), which is published on our [website](#). We have not considered potential effects on other matters and do not rule out the potential for the proposed development to affect other interests.

We advise the applicant that, in addition to planning permission, it is their responsibility to ensure they secure all other permits/consents/licences relevant to their development. Please refer to our [website](#) for further details.

If you have any queries on the above, please do not hesitate to contact us.

Yn gywir / Yours faithfully,

Sara Thomas
