### Important Information

- Use of the data is governed by Cofnod's [Terms & Conditions](#).
- Data marked as confidential or sensitive must not be released into the public domain, with the exception of the Public Version of the PDF report, which has had sensitive information removed or restricted.
- You should not amend any part of the downloaded records.
- Unless otherwise agreed, use of the data is valid until the Expiry Date (25/01/2023).
- Past records of presence of a habitat or species do not guarantee continued occurrence; absence of records does not imply absence of a species, merely that no records are held by Cofnod; Cofnod cannot guarantee the accuracy of supplied data; copyright of records remains with the original recorder.
- The Dataset ID associated with each record can be used to find information about the provenance of the data. See the [Cofnod Metadata](#) page for more information.
- Verification Levels are given for each record and indicate whether the record has been assessed by an expert.
- Please [contact us](#) if you have any questions about using the data or wish to add further Data Users.

### Notes

- Records with 1km, 2km, 5km, 10km or 100km grid references (where present) are highlighted with, for example, (1km) next to the distance to indicate that the distance

should not be considered to be exact given the vague nature of the grid reference.

- Records shown in **bold** typeface are sensitive species records, and some details have been restricted in this public version of the report.

## Verification Levels

- **UA:** Unassessed
- **PC:** Probably Correct
- **KC:** Known Correct
- **NA:** Not Required

## Species Categories

- **All Other Species:** Any species not included in other categories
- **Category 1 Species:** Species with European and/or UK Legal Protection, Section 7 Species or UK BAP Priority Species
- **Category 2 Species:** Global Red List, British Red Data Book, Nationally Rare & Scarce, Welsh Red and Amber Birds & Welsh Vascular Plant Red Data List, not identified in Category 1
- **Category 3 Species:** LBAP Species not identified under Categories 1 & 2, Locally Important species as specified by local experts

## Data Description

|                     |                                                                                                                                                                                                                                          |
|---------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Distance</b>     | Indicates the distance, in metres, between the grid reference of the record (using the central point of the grid square) and the search location. For any Sensitive Species Records, this should not be released into the Public Domain. |
| <b>Species Name</b> | Name of the taxon (usually identified to species level) using the binomial system.                                                                                                                                                       |
| <b>Date</b>         | Date on which the record was made. In some cases this might be a date range, or a vague date such as 'Summer 2010'.                                                                                                                      |
| <b>Recorder(s)</b>  | One or more people who made the original observation and recorded it in some way. It may have subsequently been included in a data collation by another person or it may have been submitted to the LERC directly.                       |
| <b>Abundance</b>    | Number of individuals recorded. Where not specified it is assumed that at least one was present.                                                                                                                                         |
| <b>Record Type</b>  | A description of the type of record.                                                                                                                                                                                                     |
| <b>Site Name</b>    | The site name (if one has been supplied). For any Sensitive Species Records, this cannot be released into the Public Domain.                                                                                                             |
| <b>Notes</b>        | Any additional notes about the sighting. For any Sensitive Species Records, this cannot be released into the Public Domain.                                                                                                              |
| <b>Dataset ID</b>   | ID of this dataset. See 'Important Issues' for more details.                                                                                                                                                                             |
| <b>Lists</b>        | Any local, national or international conservation statuses or legal protection which apply to this species and whether it is included in any Local Biodiversity Action Plans. See 'Abbreviations' for more details.                      |
| <b>V</b>            | An indicator showing the level of confidence held in the record's correct identification.                                                                                                                                                |

## Dataset Information

The records in these results are drawn from the following datasets. Use the Dataset ID next to each record to find its dataset.
