

Permit Terms and Conditions –

<https://www.gov.uk/government/publications/coal-mining-permit-terms-and-conditions-application-form>

1. The Client shall, for a period of 12 years from the effective date (as defined on the Permit Certificate), indemnify the Coal Authority (“the Authority”) against liability for any claims, losses or damages, including those made under the Coal Mining Subsidence Act 1991, from any party, arising as a result of any works carried out on the site by the Client, its Designers, and/or Contractors. This provision applies to all works carried out on the site affecting Coal Authority property. Accordingly, in addition to works authorised by the Permit, the indemnity also applies to any works which go beyond the scope of works permitted in the Permit Certificate (i.e. unauthorised works, whether foreseen or otherwise) and works which would have otherwise been authorised by the Authority.
2. It is the sole responsibility of the Client to appoint a Designer for the works and comply with all relevant legal and regulatory requirements (including, but not limited to, safety) for the works. In issuing a Permit Certificate (or otherwise authorising works), the Authority is not providing any confirmation or approval of the design of the works, and will have no liability for the design and/or safety of the works. All responsibility for suitable and sufficient design and risk assessment ultimately rests with the Client.
3. In accepting these Terms & Conditions, I confirm that my Agent (see Agent Details box below) is authorised to complete and submit the Permit application form on my behalf, liaise with any other parties, make decisions on my behalf and represent me in all discussions with the Coal Authority.

4. It is a material condition of a Permit Certificate being issued that the Client confirms the details of all contractors to be engaged in works at the site. This information must be provided in the application form. No contractor is to be permitted access to a site affecting Coal Authority property without the prior approval of the Coal Authority. In the Application Form, the Client must also confirm to the Authority, which Designers are authorised to act as its Agent with regard to permitting matters with the Authority. A Permit Certificate will not be issued until all of this information is provided to the Authority. If additional contractors are engaged during the course of the works, or a designer is no longer authorised to act as agent, the Client must advise the Authority of any such changes within 5 working days. Such changes are a variation to the Permit Certificate, and must be notified to the Authority using Form PERM-B.

The Client will be considered in breach of these terms and conditions if:

- (i) the Client, their Agents or Contractors are in breach of conditions referred to on a Coal Authority Permit Certificate issued to them or in writing thereafter by a Permitting Manager;
 - (ii) the Client, their Agents or Contractors employ a method of working not declared in writing by the Authority or on a valid Permit Variation Certificate; and/or
 - (iii) the Client, their Agents or Contractors undertake any works on Authority property that is not within the latest permit boundary plan issued to them by the Authority or on features that are not within the scope of the Permit Certificate.
5. It is a material condition of a Permit Certificate being issued that the Client has reliance on suitable and sufficient insurance to cover the full liability of the Client under Condition 1 (Indemnity) above. Such insurance must be maintained for the period of 12 years from the effective date (as defined in the Permit Certificate). Failure to obtain (or maintain) adequate insurance will not affect the liability of the Permit Holder under Condition 1 above.
6. If at any time the Authority considers the Client, Designers or Contractors to be in substantial breach of any of the obligations or conditions of these Terms and Conditions or the application form, the Authority may terminate the Permit (or authorisation for works) by written notice. Where a Permit Termination Notification is served, all activities interfering

with the Authority's interest must cease with immediate effect. In the event that the Permit (or authorisation) is terminated, the Client will be required to reimburse the Authority for all costs incurred by the Authority in making works at the site which affect the Authority's property safe and, if deemed required by the Authority, returning the same to the pre-works condition. These Terms and Conditions will continue to apply to all works carried out at the site by the Client, its Designers and/or Contractors up to the date of termination of the Permit (or authorisation) for the works. This includes, but is not limited to, the full provisions in Condition 1 (Indemnity) above which will apply in respect of the works. Where such breaches of these Terms and Conditions or the application form do not, in the opinion of the Authority (acting reasonably), jeopardise public safety, the Client may be given reasonable opportunity (as determined by the Authority) to remedy any such breach prior to the Permit (or authorisation) being terminated. In that event, a Permit Suspension Notification form will be issued to the Client. Where such a notification is served, no further works can be carried out until the Client is notified by the Authority. These Terms and Conditions will continue to apply for the whole period whilst the Permit is suspended.

7. The Permit Holder must notify the Authority as soon as reasonably practicable, using the 24 hour Emergency Service on 01623 646333, when there is evidence of spontaneous combustion of coal, uncontrolled/ harmful emissions of mine gas or water or other mining related hazards, has occurred during the course of the permitted activities.
8. In the event that the Client identifies that any additional works are required beyond the scope of the Permit granted by the Authority, the Client must obtain further permission from the Authority to cover all such works (to enter, disturb or change coal mines or coal owned by the Authority) to be carried out. This obligation applies to all additional works beyond the scope of the Permit, with the exception of emergency works required to mitigate against an immediate threat to life or the environment. In that event, the Authority must be notified of the works as soon as reasonably practicable. The Client must also obtain further authorisation from the Authority to change the method for carrying out authorised works or to extend the period for the works beyond the 12 month term authorised in the Permit Certificate. Such changes are a variation to the Permit Certificate, and authorisation for the

works must be sought from the Authority using Form PERM-B. The Authority will place reliance upon any statement made or information contained within the Form PERM-B, and any variation to a permit will be issued in accordance with such statements and/or information. The Authority will review the application and, if approved, will issue a Permit Variation Certificate for the additional works and/or alteration to the method for the works. In no circumstances may the Client, or its Designers, and/or Contractors, carry out any works until such time as a Permit Variation Certificate has been issued by the Authority, authorising the works. In the event that unauthorised works are carried out before a Permit Variation Certificate is issued (including emergency works), the provisions of Condition 1 (Indemnity) above shall nonetheless apply. The Client will be liable under the indemnity provisions for all works relating to Authority property that have been carried out.

9. Unless otherwise agreed a Permit shall be valid for 12 months from the effective date, as defined on the Permit Certificate.
10. All costs incurred in compliance of the terms of this Permit shall be borne by the Client.
11. The Client shall provide all facilities, reasonably necessary, to allow the Authority to inspect the site and carry out its statutory duties, powers and obligations.
12. Unless otherwise agreed, a report or reports commissioned detailing the works undertaken, including any interpretations and recommendations together with the Authority Closure Summary Form, must be submitted by the Client before the permit expiry date (usually 12 months), in order that the Authority's records can be updated. The Client must also provide to the Authority copies of all reports relative to all investigative and treatment works carried out. The Authority will place reliance upon any statement made or information contained within the Permit Closure Form, completion report(s), and any other information submitted with the form, for the purposes updating and maintaining its records and discharging its statutory obligations.
13. In accepting the closure information and closing the permit file, the Authority does not

confirm the adequacy or accuracy of the works carried out or the sufficiency of the information provided in the Permit Closure Form.

14. The granting of a Permit does not give the Client, its Designers and/or Contractors, any right to explore or exploit coal or derivatives, coal mine methane, coal-bed methane, other minerals in the ownership of the Authority or to occupy property in the ownership of the Authority. Where it is necessary to dig and carry away coal, or occupy Authority property, a separate agreement must be obtained in advance of any such works being carried out.
15. The Client, its Designers and/or Contractors must ensure that nothing, other than that agreed by the Authority through the Permit, is deposited, falls or flows into any mine entry, mine working, mining collapse, excavation or borehole unless duly authorised.
16. All parties involved in the works must be competent and have the necessary experience and resources to safely undertake the proposed works, and shall adopt appropriate safe practices and procedures for interacting with potentially hazardous conditions associated with coal bearing strata and former coal mining activities.
17. All parties involved in the works shall execute the works in accordance with applicable legislation, standards and good practice guidance.
18. All other rights, consents or permissions necessary (as required by the Authority and / or under statute) to undertake the works shall be obtained before any works proceed.
19. Where the Authority requests additional information to validate a Permit application, the applicant shall provide that information within 14 days. Failure to provide the information within the requested period will result in the Permit application being deemed withdrawn and the fee being forfeited. A new Permit application and fee will then need to be submitted if the applicant wishes to continue work. No work should be undertaken until a permit certificate is received.

20. A fee (as prescribed in the fee schedule) must be paid. In the event that any payment is subsequently dishonoured or is otherwise unpaid, any Permit that has already been issued will be withdrawn.

21. These terms and conditions are non-negotiable and must be signed by the Client and submitted to the Authority when applying for a permit. These terms and conditions will continue to apply to all works carried out at the site by the Client, its designers and or contractors up to the date of termination of the Permit (or authorisation) for the works. This includes, but is not limited to, the full provisions in Condition 1 above.

22. Further Information can be obtained by contacting:

Permitting and Licensing, 200 Lichfield Lane, Mansfield, Nottinghamshire, NG18 4RG (Tel: 01623 637450, Email: permissions@coal.gov.uk, the direct website link is: <https://www.gov.uk/get-a-permit-to-deal-with-a-coal-mine-on-your-property>

The office is open: Monday to Thursday – 8:45 am to 5 pm, Friday – 8:45 am to 4.30 pm.

The Client must confirm their agent's details here:

Agent Details:	
Company Name.....	Groundsolve
Contact Name.....	Stefan Imiocyk

By signing these Terms & Conditions, as the Client, I confirm acceptance of, agree to be bound by, and agree that all works will be governed by the foregoing terms and conditions.
