

I would like to make an objection to the appeal by McDonalds who want to open a drive through on the car park of The Range at Wrexham

Wrexham council refused planning permission on the grounds that it would cause traffic congestion

I live in the area and can confirm that the congestion is horrendous at certain times . A retail park in the area generates huge amounts of traffic , also we have 2 supermarkets a petrol station a pub a university a school and now a big housing development , not to mention a football club and a tennis centre . The traffic to all these go via a series of roundabouts . A busy food outlet like McDonalds will add to an existing frustrating situation

Please turn down this appeal as we already have a McDonalds less than a mile away

Regards

E Pritchard
