Subject: 27 Maes Teg

Hi Sarah

Visited 27 Maes Teg today and measured fence from footpath at rear.

Approx. measurements:

Height 2.77m

Width – 7.76m

Depth on:

East boundary – 2.27m

West boundary 2.33m

Width between fence of property and the footpath fence is approx. 3.4m.

Further up the footpath the narrowest width is 2.9m

The only reason I mention this is because the complainant states he can't get machinery up the footpath due to the fencing however the path is narrower further up so is it causing that many problems?

Images below with measurements:

Hope this helps
Jo
