

Sewer Plan PLA0061227

LEGEND(Representative of most common features)

Notes:

Whilst every reasonable effort has been taken to correctly record the pipe material of DCWW assets, there is a possibility that in some cases pipe material (other than Asbestos Cement or Pitch Fibre) may be found to be asbestos cement (AC) or Pitch Fibre (PF). It is therefore advisable that the possible presence of AC or PF pipes be anticipated and considered as part of any risk assessment prior to excavation.

DeCenCy CyberGuide ("Cy") company/gives this information as to the position of its underground apparatus by way of general guidance only and on the strict understanding that it is based on the best information available and no warranty as to its correctness is relied upon in the event of excavations or other works made in the vicinity of the company's apparatus. The user of this information is advised that the information is not intended to be used as a guide for any work on the part of the Company, is made in accordance with statutory requirements of sections 190 and 191 of the Water Industry Act 1991 and is subject to the usual disclaimer of liability for information. In the event of any excavation or other work being carried out involving digging, it should be noted that the records that are available to the Company may not reflect the existence of a water main, sewer, cable or other underground apparatus. If the user of this information is responsible for any excavation or other work, the dangers therefrom including their position underground may not be accurate. It must be understood that the furnishing of this information is entirely without prejudice to the provision of the New Roads and Street Works Act 1991 and the provisions of the Public Health Act 1936 for any person to apply for a licence to excavate or to carry out any work on the street.

Service sites are not necessarily shown but their presence should be anticipated.

EXACT LOCATIONS OF ALL APPARATUS
TO BE DETERMINED ON SITE.
