

P/2021/0107 - Penley Mill - LL13 OLYHi Bryn

Apologies for the delay in getting back to you.

The proposed lake will obstruct the legal alignment of Penley public footpath 1 – I have drawn the alignment of the footpath onto the attached plan . The two options available to the applicant are:

1. Amend the proposal so that the lake does not affect the footpath.
2. Apply to have the footpath legally diverted.

Diverting the footpath would require a legal order and the new alignment would need to be agreed before we proceeded with the diversion. There is also a cost for diverting footpaths which is approximately £2000-£3000.

If the applicant/agent would like to speak to me, please provide them with my details.

Regards

Sean Hanratty Sean.Hanratty@wrexham.gov.uk
