Good afternoon,

Regarding the application referenced above at Bryn Ffynnon.

We have received more photographic evidence from the agent, supplied by the property owner showing the installation of the timber into the chimney breast in February 2011. This allows us to now remove the condition for a photographic survey on the property as the feature is irrelevant to our heritage records.

I thank you for your help on this application and with a little more information we have answered the question of potential historical features and saved the client time and money in the process.

Kind regards,

Neil
