Annwyl Syr/Madam / Dear Sir/Madam,

BWRIAD / PROPOSAL: DISCHARGE OF CONDITIONS 2 (MATERIALS), 3 (SITE MEETING WITH CONSERVATION OFFICER), 5 (BOUNDARY TREATMENT), 6 (EXTERNAL SURFACE MATERIALS), 11 (BAT SURVEY), 15 (ARCHAEOLOGICAL SURVEY), 16 (PHOTOGRAPHIC SURVEY) OF PLANNING PERMISSION CODE NO. P/2013/0505

LLEOLIAD / LOCATION: BRUNETT FARM, TY BROUGHTON, WHITCHURCH, WREXHAM, SY13 3BA

Thank you for consulting Cyfoeth Naturiol Cymru / Natural Resources Wales with the updated information about the above, which we received on 10/03/2021.

We do not recommend your Authority discharges condition 11 for the following reasons.

We have no comments to make on the discharge of conditions 2 (materials), 3 (site meeting with conservation officer), 5 (boundary treatment), 6 (external surface materials), 15 (archaeological survey), and 16 (photographic survey).

Protected Species

We note that an updated ecological report has been submitted in support of the application to discharge condition 11 (Ecological Appraisal: Brunett Barn, Lower Wych Lane, Ty Broughton, Whitchurch, SY13 3BA. Greenscape Environmental Ltd. Ref 20-05 107.2R. 10/03/2022).

We advise that the report addresses most of the concerns raised in our previous response dated 09/02/2022 (CAS-180877-W8L5), including:

- Plans in respect of proposed mitigation/compensation measures.
- Ecological compliance audit; and
- Further information on external lighting.

However, we advise that further clarification is provided about what post-construction monitoring is proposed. We advise that one year of monitoring, as stated in Section 5.8.2, is not satisfactory. However, proposals to undertake surveillance in years 2 and 5 are satisfactory.

We therefore advise that the further information above is submitted to assess the extent of adverse effects on the bats and any avoidance or mitigation measures required. This must demonstrate that the proposed development would not be likely to be detrimental to the maintenance of the population of the species concerned at a favourable conservation status in its natural range.

In the meantime, we are unable to give you any assurance that the proposal would not be likely to be detrimental to the maintenance of the population of the species concerned at a favourable conservation status in its natural range.

Other Matters

Our comments above only relate specifically to matters included on our checklist, *Development Planning Advisory Service: Consultation Topics* (September 2018), which is published on our [website](#). We have not considered potential effects on other matters and do not rule out the potential for the proposed development to affect other interests.

We advise the applicant that, in addition to planning permission, it is their responsibility to ensure they secure all other permits/consents/licences relevant to their development. Please refer to our [website](#) for further details.

Yn gywir / Yours faithfully,

Rhys Jones
