Subject: [DKIM:INVALID] P/2022/0223 Conversion of Engine House, Bronydd Quarry, Glynceiriog - Photographic Survey Condition
Attachments: Photographic Survey Guidance.docx

Dear Sharon

Thank you for the consultation on this discharge of conditions application.

Unfortunately, we cannot discharge this condition based on the submitted photo survey for a number of reasons:

- 1) The photographs have been submitted as a low-resolution pdf report only and to fully comply with the condition, and the photo guidance sent with the original advice (attached), we would need the original high-resolution camera files in jpeg format and a high resolution PDF report to be sent to the Historic Environment Record Officer (Gary Duckers gary.duckers@cpat.org.uk) via this upload link and form <https://cpat.org.uk/heddos.html> The same archive should also be sent to the National Monuments Record, RCAHMW Telephone: 01970 621200 E-mail: nmr.wales@rcahmw.gov.uk Confirmation that the photos have been sent to the HER and NMR should be sent via email to myself and the LPA. Low resolution pdf reports are not acceptable on their own as a valid photo survey.
- 2) The numbered internal and external photo locations and direction of view have not been marked on an architect's floor plan and this would need to be included in the report.

These issues have arisen because an archaeological contractor was not engaged by the applicant in accordance with the photo survey guidance note. A WSI has also not been produced for prior approval in accordance with the advice.

Until the above issues are rectified, we will not be able to confirm discharge of the condition.

Kind regards

Mark Walters
