WREXHAM COUNTY BOROUGH COUNCIL as SuDS Approving Body hereby **APPROVES** the Sustainable Drainage System associated with the following development in accordance with the plans and application submitted to the Council, subject to any conditions.

Location:	Ty Nos Holt Road Wrexham LL13 8HL
Description of Proposal:	housing development of 18 dwellings and 1 office space and include associated hard and soft landscaping

Date of Decision: 10th November 2021

Signed:

Kevin Edwards
Streetscene Team Leader

On behalf of
Darren Williams
Chief Officer Environment & Technical

IT IS IMPORTANT THAT YOU COMPLY WITH THE APPROVED PLANS AND ALL CONDITIONS BELOW. PLEASE READ INFORMATIVES BELOW THAT ACCOMPANY THE DECISION.

CONDITIONS OF APPROVAL

1. All works undertaken should be in strict accordance with the **APPROVED PLANS, DRAWINGS & SUPPORTING DOCUMENTS** as detailed below, and thereafter permanently retained in an operational condition to ensure the full function of the SuDS scheme as approved.
2. The development hereby permitted shall be **commenced** before the expiry of **five years** from the date of this approval.
3. The applicant must, in writing, notify the SAB a minimum of **7 days prior** to the intention to commence works on site.
4. Notice in writing must be given within **21 working days** by the applicant to the SAB upon completion of SuDS works, this must include:
 - Evidence that the scheme has been implemented in full compliance with the **APPROVED PLANS, DRAWINGS & SUPPORTING DOCUMENTS**.
 - Detailed “as built” plans of the approved SuDS scheme, in a format agreed with the SAB, for inclusion on the register of SuDS features.

The SAB reserves the right to inspect the works should the evidence be deemed unsatisfactory. Inspection fees will be charge at £168 per inspection in accordance with The Sustainable Drainage (Application for Approval Fees) (Wales) Regulations 2018.
5. The applicant is obliged to maintain the drainage system in accordance with the APPROVED PLANS, DRAWINGS & SUPPORTING DOCUMENTS for the lifetime of the development the approved SuDS serves.
6. The applicant retains full responsibility for management and maintenance activities for the lifetime of the development. Should at any point in the future any dwelling or plot be transferred to a third party then the applicant must ensure provision is made to ensure future management and maintenance of the approved SuDS scheme will continue unhindered. Funding of any such activity will remain the responsibility of the applicant.
7. All SuDS structures or features that will not be adopted by the SAB shall be designated as a local land charge in strict accordance with Schedule 1 of the Flood and Water Management Act (2010). Written evidence of this registered land charge shall be submitted to, and approved in writing by, SAB prior to the first use/occupation of the associated development.
8. No surface water and/or land drainage shall be allowed to connect directly or indirectly with the public sewerage network. This is to prevent hydraulic overloading of the public sewerage system, to protect the health and safety of existing residents and ensure no pollution of or detriment to the environment.

INFORMATIVES & ADVISORY NOTES

- This approval does not remove from the applicant the necessity to obtain other licences, consents, approvals or permissions (including planning permission) which may be required in law or in order to comply with any duties or responsibilities for conservation or protection of the environment.
- The SAB accepts no responsibility for the design and construction of the works that are the subject of this approval; nor liability for any costs or damages that may arise out of their design, construction, maintenance or use.
- Site construction runoff should be adequately treated to ensure no sediments or pollutants are passed on to downstream receiving waterbodies, SuDS or sewers.
- Please note that this SAB approval relates solely to the approval of SuDS components. In order to establish whether the proposed development benefits from consent, the applicant is advised to refer to the planning permission granted as well as any conditions in reference to foul water drainage. In accordance with the Town & Country Planning (Development Management Procedure) (Wales) (Amendment) Order 2016 Dwr Cymru Welsh Water is a statutory consultee to the planning process and will provide comments to any proposals for foul water drainage by response to a planning application consultation.

RIGHTS AND GENERAL INFORMATION

We believe that a negotiated solution is best when dealing with disputes around SAB decisions. However a formal mechanism for appeals to the Welsh Ministers is provided in Regulations (Sustainable Drainage (Appeals) (Wales) Regulations 2018).

Full details of the procedure for appeals, including; how an appeal may be made, the information to be provided, duties of the SAB in providing information, timescales for appeal decisions and the specific duties for the Welsh Ministers, are contained in the Sustainable Drainage (Appeals) (Wales) Regulations 2018.

Please Note noted that making an appeal does not suspend a decision and a developer appealing against a condition of an approval must not start construction.

SAB decisions that can be appealed and the time-limit for doing so

In the event that a mutually acceptable resolution of a dispute over a SAB decision cannot be reached, which may relate to:

- an application for approval,
- approval conditions, including a condition specifying a non-performance bond,
- a request to adopt a drainage system.

The developer may, by notice, appeal to Welsh Ministers against the decision, the appeal must at the same time be copied to the SAB. In practice, the Planning Inspectorate Wales (PINS) will handle the appeal on behalf of the Welsh Ministers. A copy of the form needed to make an appeal is available by contacting PINS:

- Website: https://beta.gov.wales/planning-inspectorate?contact_us/
- Email: wales@pins.gsi.gov.uk
- Telephone: 0303 444 5940

An appeal must be made to the Welsh Ministers (PINS) and copied to the SAB within the time-limit set in Regulation 5 of the Sustainable Drainage (Appeals) (Wales) Regulations 2018:

- Any appeal concerning an application for approval or a request to adopt must be made within the period of 6 months beginning with:

Appeal Type	Either	Or
An application for approval (other than a decision about a condition)	The date of the decision	If the appeal is against the deemed refusal of the application arising from the failure of the approving body to determine the application within the period prescribed in Regulation 5 of the Sustainable Drainage (Approval and Adoption Procedure) (Wales) Regulations 2018, the last day of that period.

- Any appeal concerning a condition of approval, including a condition specifying a non-performance bond, must be made within the period of 6 months beginning with the date approval is granted.

In addition, the appellant must identify a choice of appeal mechanism:

- Written representation
- Oral hearing
- Enquiry

Appeals may be submitted electronically or by post. An appeal may be withdrawn at any time by the appellant by giving notice in writing to the Welsh Ministers (PINs), copied to the SAB.
