H. FULL STATEMENT OF CASE

This is your **only** opportunity to make your case in connection with the reason for the appeal as indicated in section F. Therefore please provide your **FULL** statement of case. To do this, you need to go through the reasons for the decision (if provided), and explain why you disagree. Only the reasons within the LPA's decision and the reasons put forward by you at application stage should be included on your appeal form. You should not introduce any new reasons for the appeal. Please refer to our Procedural Guide for further information.

Please continue on a separate sheet if necessary

Planning permission was refused due to the fact that it is likely to increase the amount of traffic using the burgess lane. Due to there being inadequate visibility at the junction with the A539, its restricted width and lack of passing places, the development is deemed to have a detrimental impact to highway safety.

This development has been introduced due to the current geopolitics that surround global warming and climate change. It is a recycling collection center to collect waste plastic, and other environmental impacting plastics from agricultural and horticultural industries. It forms a part of many plastic waste collection centers around the UK managed by Farm XS. The site in which this development is situated is that of the Burgess Lane, Penley. This is part of our family farm in which the location has been carefully selected for many reasons. One reason is that the site is situated next to a property that operates HGV from its yard, this uses the access from the junction A539 and has this has been the case for over 20 years. Opposite the development of that of the Burgess lane is DIY livery company and also a tractor contractor, both of which have increase the traffic on the burgess lane significantly in the last 15 years causing no significant impact to highway safety. Currently traffic for access to opposite operates with large vehicles such as horse boxes, cars, which are often using this road to tend to their horses and this traffic usually is at his highest after work hours and weekends. No accidents or fatalities on this burgess lane have been reported over the last 10 years and this is due to the positive impact that national speed limit can not be reached due to it being a country lane. The lane has 5 passing places that are visible and large enough to allow larger vehicles i.e HGV to pass safely. The second reason for this choice of location is that the yard is large enough to accept larger vehicles eg tractor and trailers which ultimately will reduce the need for repeated visits by the agricultural customers and will easily allow the access for Farm XS plastic bailer on site. Again this will reduce the amount of visits needed per year and will not have a significant impact on road usage or road safety.

I. PROCEDURE (see guidance for further information)

Appeals dealt with under Part 4 of The Town and Country Planning (Referred Applications and Appeals Procedure) (Wales) Regulations 2017 can be considered on the basis of written representation, a hearing, an inquiry or combined proceedings. In accordance with the Town and Country Planning (Determination of Procedure) (Wales) Order 2017, the Planning and Environment Decisions Wales will make a determination as to the most appropriate procedure and will review it throughout the process.

Please tick one box only

I consider the written representations procedure is appropriate.	☐
I do not consider that the written representations procedure is appropriate for the reasons given in the box below. I accept that it will be the Planning and Environment Decisions Wales decision as to whether a hearing, inquiry or combination will take place.	☒

If you feel that a hearing or inquiry is needed please provide your full reasons below, including the likely number of days you feel that the event will last and how many witnesses you intend to call.

An independent assesment of the case is required due to the circumstances of refusal, this decision was made on presumptions and not stastifitactal data. As the applicant I feel that the decision was not assessed in accordance to its environmental merit.
