Hi Andy,

I can confirm that we can accommodate the proposed development's foul flows including phosphates at Five Ford's waste water treatment works.

Should you need anything further on this please let me know.

Thank you,

Rhodri

Hi Rhodri

Re: attached correspondence:

Planning are requesting confirmation from WW that there is capacity to treat the additional wastewater and phosphorus, from the proposed development (in combination with other planned development), within the existing discharge permit limits at Five Fords WwTW. I would have thought the attached was sufficient but looks like Wrexham Planning want further confirmation

Can you please assist?

Regards

Andy Jones
