Hi Matthew,

I can confirm that phosphate can be treated within the existing sites discharge consent.

Thank you,

Rhodri

Rhodri,

Thanks. Can you confirm that with the foul flows from this site, the WwTW would continue operate within the extant phosphate consent?

Regards

Matthew Phillips

Hi Matthew,

Thank you for patience on my response,

The catchment's sewerage is treated at Lavister waste water treatment works, this has a phosphate consent of 1mg/l annual mean.

Thank you,

Rhodri

Rhodri,

Sorry for following this up. I don't necessarily need the full appropriate assessment/HRA. However sight of the overall consultations would be good if you have those?

Regards

Subject: Discharge of condition application - P/2021/0111 WW reference PLA0055287

Dear Rhodri,

I refer to your consultation response dated 23 March 2021 in respect of the above application regarding the submissions made in respect of condition 07.

The applicants have submitted additional drainage plans – these are available on the online file.

I would be grateful for your comments on these. I would also be grateful if you could confirm the following in response to NRW's comments (see attached) regarding foul drainage:

- The Waste Water Treatment Plant serving Rossett; and
- Whether this has capacity for the development and a phosphate consent.

Yours sincerely

Matthew Phillips
