Hello Mike,

Thank you for the photos which seem to clarify the situation. Based on the up-to-date evidence now provided I am able to confirm that there will no longer be a requirement for the application to be accompanied with an arboricultural survey.

May thanks for your co-operation on this matter.

Regards

Jon Brewin

As requested, find attached photographs of the current site.

The stump of the willow tree has only remained to provide screening to the area behind, which is currently being used as a wood store. The intent is to remove the wood store, stump, and remaining foliage before the nesting season in March. This needs undertaking regardless of whether we build a garage as the area is currently a mess and boundary hedge / fence needs replacing.

If you need any additional information, please contact me direct.

Thanks
Mike

Comments regarding the requirement for an arboricultural survey were based upon a desktop assessment undertaken at the start of the validation process. Should the findings of this assessment be considered out of date and challenged then it may be advisable for the applicant to provide photographic evidence indicating the current level of tree coverage and associated vegetation on site.

Should this be acceptable then any subsequent photos or further evidence may be emailed directly to myself.

Regards

Dear Mr Tunstall,

Thanks for the confirmation regarding the elevations I thought this would be the case, please could you annotate this on the plans. All elevations must be shown in plan form even if they are identical or blank.

With regard to the Tree Report I will forward your email to Jon Brewin our Tree Officer and ask him to respond to your points.

Kind Regards

Sharon Williams

Sharon,

Further to your email, we can respond as follows:

1. The side elevations are both identical, hence only 1 no. was included. This is also reflected on the GA. Therefore, as both elevations are identical would it be acceptable to amend the description?
2. Please can you clarify if you have conducted a site visit to determine the extent of trees? Previously there was a willow tree and an apple tree, which were removed in October 2021 by Treehogs who are a ARB Approved Contractor. The remaining foilage is overgrown hedging and bushes. Therefore, we would appreciate if the requirement for a tree survey could be reconsidered?

Thanks,

Mike

Dear Sir,

I refer to the recently submitted planning application and wish to inform you that the following information is required to validate the application:

- Elevations. Please provide both side elevations of the garage, only one elevation has been provided.
- Tree Report: A Tree report BS5837:12 is required to accompany the application as there are trees present on the site which are a material consideration. If you wish to discuss this element of the validation please contact Jon Brewin Tree Officer on 01978 298763 or Jon.Brewin@wrexham.gov.uk

Once this information has been provided I will be able to validate the application.

Kind Regards

Sharon Williams
