We refer to the above application regarding the information submitted pursuant to the discharge of condition no. 18 attached to the above planning permission

We have reviewed Drainage Report that has completed a connectivity survey on existing development site, with foul flows discharging to the public sewerage network and surface infiltrating into a soakaway as well as discharging to public foul sewer.(we would not accept any surface water discharging to public sewer from proposed development) and comment as follows:

Welsh Water has no objection to the discharge of condition no.18 from the above planning consent.
