m-b-at (Mark Bevington Architectural Technician) is a trading name of NWD Architects Limited
The Old Church Hall Old Coach Road Kelsall Cheshire CW6 0QJ Company No. 01315551.

General Notes. All work is to be carried out in accordance with Building Regulations approvals only. Drawings are to be carried out in accordance with the Local Authorities' Building Control's requirements, all manufacturing recommendations/instructions, all relevant British Standard Codes of Practice and good building practices. All heating appliances are to be installed in accordance with the relevant Regulations, and Certificates of Installation shall be provided upon completion of works. All existing services are to be protected and repaired as required. The Contractor shall ensure that the drawings check and verify all building conditions, dimensions, levels and sewer invert levels before the commencement of works on site. This drawing must be read in conjunction and checked against any structural or other specialist drawings provided. The Safety Requirements of the Health and Safety at Work Act 1974, The Management of Health and Safety at Work Regulations 1992, The Construction (Design and Management) Regulations 2015 (www.hse.gov.uk/construction/cdm2015/domestic-clients.htm) are to be adhered to, and it is the complete responsibility of the contractor to ensure that they are adhered to at all times during construction, to confirm, m-h-a have not assumed the role of principle designer in this instance. The client should therefore ensure that they discuss this matter with their chosen contractor to establish your duties, and those transferred over to the contractor (if a single contractor) or principal contractor (for projects with more than one contractor). At all times on the site, operatives are to wear full protective clothing in accordance with the Regulations. The contractor is to comply in all respects with the current Building Regulations. Details specifically stated on this drawing in this specification document, or noted at Building Regulations level, shall be complied with. All planning approval conditions, whether stated on the drawing or otherwise, shall be complied with. All planning approval conditions, whether stated on the drawing or otherwise, must have the approval of Planning, Building Control and the client. The client is to be notified by the nominated contractor of any 'cost variation' to building work before it is carried out. Any deviations from the drawings and specification are carried out at the risk of the contractor/client. Do not scale off the drawings. All dimensions are indicative, and to be checked on the site first. Client is responsible for fulfilling their obligations under the Party Wall Act. Construction of the following requires notice as specified: 1) New walls or Buildings on boundaries between adjoining properties or land, and/or 2) Carry out repairs or modifications etc to existing Party Wall including underpinning or inserting a damp proof course (DPC) and/or 3) Excavations near to a neighbours buildings or wall and excavate deeper than the adjacent structure, foundation, or base of the structure. The owner should give notice using the appropriate letter format, within the specified time to the neighbour or parties involved prior to work commencing. Failure to comply with the terms of the Party Wall Act 1997 may result in prosecution to a fine and/or paying compensation to party/wall-etc-act-1996-guidance. Similarly, client is responsible for fulfilling their obligations under a Build-over or Non-to Agreement with the necessary water authorities if works are to be carried out or near to a drain run, inspection chamber or manhole, that is to a public sewer. Client/contractor to investigate prior to commencement of works on-site, and liaise with the client, relevant authority, and all other necessary aspects of existing construction are to be investigated by the contractor on-site and where required proved to be adequate/suitable prior to commencement of works. Drawings/specification are intended to be part of a Building Regulations full plans submission, and therefore subject to Building Control assessment, and subsequent approval/conditional approval. Please note, there may be subsequent changes to the design, construction, detail and specification following Building Control's assessment.

PLEASE NOTE:- All dimensions, in mm, are estimated.
