WORKS TO TREES PROTECTED BY TREE PRESERVATION ORDER NO.
WMBC NO. 11

- 20% CROWN REDUCTION AND CROWN THIN TO HORSE CHESTNUT

In reaching this decision stated below the Council has had regard to the relevant policies in the Wrexham Unitary Development Plan and any agreed Council strategy which are as follows:-

- EC4 Hedgerows, Trees and Woodland
- WCBC Tree and Woodland Strategy 2016 - 2026

PARTIAL CONSENT ONLY (Please read the following carefully):

REFUSE CONSENT FOR:

- 20% crown reduction and crown thinning

GRANT CONSENT FOR:

- Prune individual branches to provide 3.0m clearance from adjacent building.
- Crown raise over garden area only to provide clearance from ground level of 5.0m.
- Undertake 10% crown thin

Conditions

1 All tree works hereby approved shall be undertaken to the standards set out in British Standard 3998:2010 Tree Works – Recommendations.

2 The tree works hereby approved shall be commenced within one year of consent being granted.

Reasons

1 To preserve the health, safety and amenity value of the tree(s).

2 To ensure the work is completed within a reasonable time scale.

Note(s) to applicant

Owner authorisation:

Please be advised that this Decision Notice does in no way provide the applicant / agent with authorisation to enter onto land or property belonging to another person(s) in order to undertake proposed works. Should the applicant / agent wish to gain access onto land belonging to another party then authorisation must be received from the owner of that land prior to undertaking the agreed works. Failure to receive such authorisation from the owner may leave the applicant / agent liable to prosecution.

Bird nesting/breeding season:

All wild birds, their young, their eggs and active nests are protected under law. It is an offence to damage a nest intentionally while it is in use or even being built. Non-urgent tree work involving tree removal/pruning and hedge cutting operations should, if possible be avoided during the bird nesting/breeding season. If necessary, then applicants and contractors are advised to take all reasonable precautions in assessing vegetation prior to undertaking works and must cease operations if at any time a nest is then discovered. Advice from the RSPB indicates the bird nesting season to be from the beginning of March to the end of August however, depending on seasonal temperatures, some birds do continue breeding into September.

Bats:

All bats and their roosts are strictly protected by law. Deliberately capturing, disturbing, injuring and killing bats is prohibited. Damaging or destroying their roosts is also prohibited.

Where bats are suspected to be present, please seek advice from a qualified arboriculturalist or a licensed bat specialist and if appropriate, get the relevant licence/s before you carry out any major tree work or hedge cutting.
