

P/2021/0817 Befesa Salt Slags Fenns Bank SY13 3PA

Hi Simon,

Yes, regarding the site notice, I'll forward over tomorrow.

The owners have closed down the plant and moved the processing operation to its facility in Spain, there are no plans to develop the site at this stage. As no planning permission has been applied for and the demolition element of the works not accessed, we need to ensure that no listed building consent is needed prior to demolition.

The structures are to be demolished down to slab level only, all up stands will also be demolished to slab level with all slab voids back filled with crushed demolition airings.

Regards

Kevin
