Subject: P/2021/1162 - Cattle Shelter, Burgess Lane, Penley, Wrexham, LL13 0ND (Minor) - NRW Response NRW:08540789

Dear Sir / Madam,

We refer to your consultation dated 8th December 2021. We have no objection to the proposed development as submitted and provide the following advice.

We note the application site is within the catchment of the River Dee and Bala Lake Special Area of Conservation (SAC). As you are aware, on the 21st January 2021, we published an evidence package outlining phosphorus levels for all river SACs across Wales. As part of this package, we issued a [Planning Position Statement](#), in which we advised that any proposed development that might increase the amount of phosphate (or phosphorus) within a river SAC catchment could lead to damaging effects to the SAC. Therefore, such proposals should be screened through a Habitats Regulations Assessment (HRA), to determine whether they are likely to have a significant effect on the SAC.

However, the application as submitted is unlikely to increase the amount of phosphorus entering the catchment. Therefore, we are satisfied that the proposal is not likely to have a significant effect on the River Dee and Bala Lake SAC.

Kind Regards,
Rachel Burke
