Bat Specific Lighting Guidance

This plan provides an outline specification for bat friendly lighting.

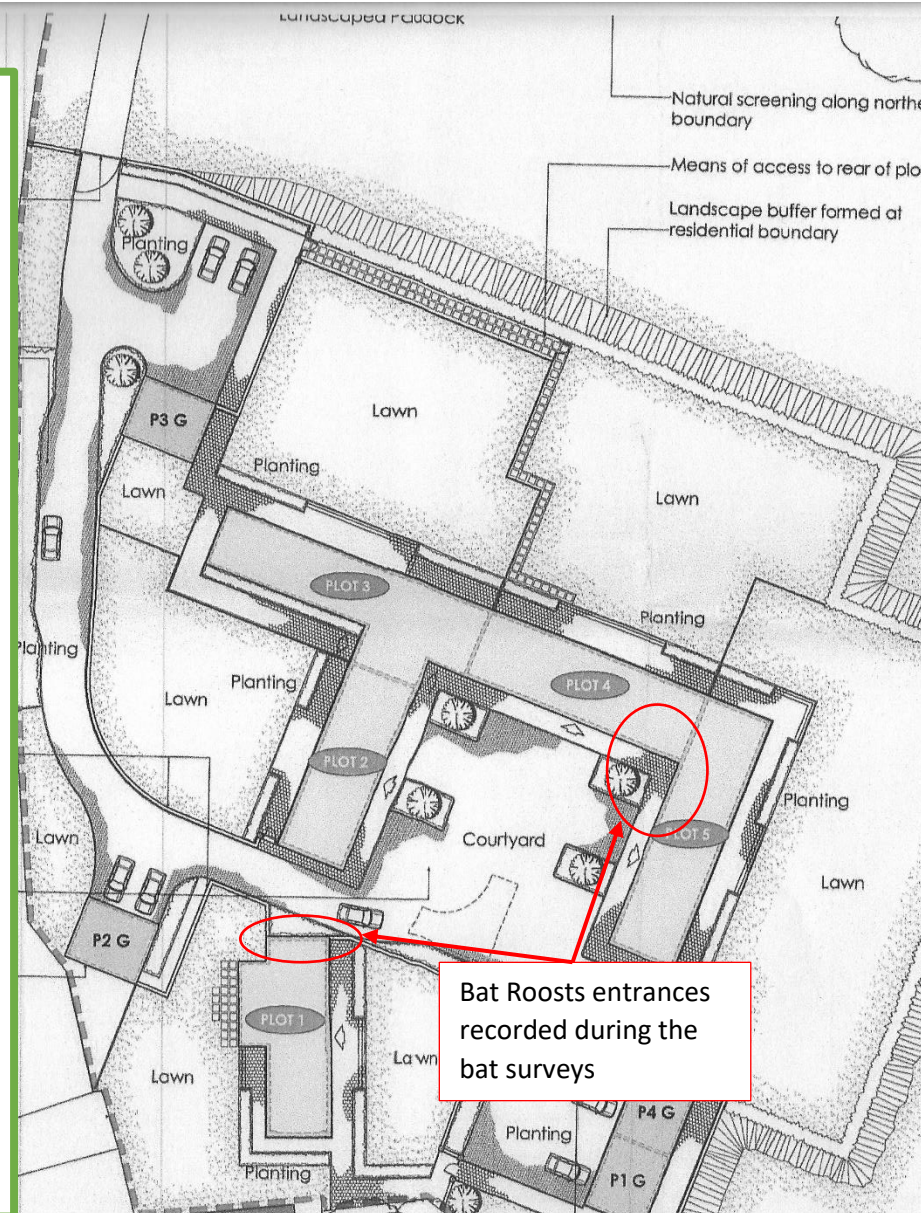

Roost Entrances

No lighting around the roost entrances as shown on the plan.

No flood lighting.

Commuting and foraging features need to be shrouded from artificial lighting.

*Bat Friendly configurations are provided in the
Bat Conservation Trust (BCT) bats and Lighting Guide*

Bat Specific Lighting Guidance

All lighting units should be shrouded in order to direct the light onto the lower building and floor.

Outer building lighting should be on a timed trigger.

No lighting spillage onto the hedgerows and trees.

Gredington Estate,
Bryn Farm
Hamner,
Whitchurch,
