Date: 14th October 2021

Town and Country Planning Act 1990

CONSULTATION ON PLANNING ENQUIRY P/2021/0616

Proposed Development: CHANGE OF USE OF BUILDING TO CLASS GENERAL INDUSTRIAL USE (CLASS B2) AND ERECTION OF EXTENSION (IN RETROSPECT)

Thank you for the consultation in respect of the above.

This section is unable to provide a full considered response without an assessment of the actual and potential noise impact on the community. As well as defining the noise levels of the existing activities the report should consider impacts from the applied for extension and if applicable, suggest attenuation methods to prevent any detrimental impact on neighbouring residential properties.

Evidence suggests that existing activities are causing a noise nuisance, which has resulted in an abatement notice being served.
