Date: 20-09-2018

Town and Country Planning Act 1990

Town and Country Planning (General Development Procedure) Order 1996

Re: P/2018/0780, ROSE WALK JONES STREET RHOS WREXHAM

REAR BEDROOM ANNEX EXTENSION TO EXISTING SUPPORTED LIVING BUNGALOW

Contaminated Land

It is noted that the original planning permission P/2003/0961 required the assessment of potential contamination concerns and that remediation measures for garden areas were agreed. This new development proposal does not increase or introduce any new risks from land contamination as the provision of a new building at this site will not create any new pollutant linkage. For this reason we do not consider a condition to assess contamination to be necessary.

In regard to construction workers, health and safety legislation should ensure that exposure risks during the development are addressed.

Environmental Protection

ZP06 - PROTECTION OF AMENITY FROM NUISANCE

All works in relation to the implementation of this permission, including deliveries to and/or leaving the site, shall be undertaken only between the hours of 07.30 to 18.00 Monday to Friday, 08.00 to 14.00 on a Saturday, and at no time on a Sunday or a Bank Holiday.

A21N - EPA 1990 NOISE NUISANCE ADVICE

The applicant is advised that compliance with condition no. @@ does not provide an exemption from the statutory noise nuisance provisions of the Environmental Protection Act 1990. Any complaints received relating to noise from the development during the permitted hours may still be investigated using the Council's Standardised Procedure for Dealing with Noise Nuisance Complaints and legal action may be taken where appropriate.

A23N - BURNING OF WASTE ADVICE

Burning of waste generated from construction activities is not considered to be an appropriate method of disposal and action may be taken as follows:

- Under the Environmental Protection Act 1990 anyone found disposing of construction site waste by burning is likely to be in breach of their duty of care with regard to waste disposal;
- Under the same Act an abatement notice may be served where smoke is judged to be causing a nuisance to neighbouring properties. Failure to comply with the requirements of such a notice can result in prosecution;
- Under the Clean Air Act 1993 it is an offence for a commercial activity to burn anything that gives rise to dark smoke.

To prevent offences under the above named Acts there should be no bonfires on the site, to include the prohibition of the burning of cleared vegetation. The applicant should contact the Council's Environment and Planning Department on 01978 292040 for further advice and information.

A25N - DUST MANAGEMENT ADVICE (SCHEME NOT REQUIRED BY CONDITION)

The Applicant is advised that under the Environmental Protection Act 1990, dust from construction and/or demolition activities can be judged to be causing a statutory nuisance to neighbouring properties. A legal notice can be served requiring that any dust nuisance is abated and failure to comply with the requirements of the notice can result in prosecution. The applicant should contact the Council's Environment and Planning Department on 01978 292040 for further advice and information.
