Hi Sharon,

Thank you for your reply. However - apologies as a few other queries have cropped up with this case:

- 1) could the construction detail be confirmed - eg proposed lining
- 2) internal dimensions at the base of the slurry store
- 3) the ecological report states proposal includes construction of a modern agricultural building within the farmyard but no drawings show a building under this consultation reference. I am aware that an application under P/2021/0670 was made in July this year so it may be that the ecological report is referencing those other developments on site. Please could this also be clarified?

Many thanks,
Rachael

Good morning Sharon,

Thank you for consulting us on the above site. Would it be possible to confirm how many stock this slurry store is intended for and also whether there is any increase in stock levels?

Many thanks,

Rachael
