Subject: YCR - Materials Condition no. 4

Philip,

Regarding application for determination of conditions – P/2018/1009

Following submission of our elevations and external material samples we have reviewed these with the Client and they have asked us to look at a lighter grey for the sports hall cladding panels and feature surround. As such we are proposing to change the micro-rib cladding panels from Kingspan Onyx (RAL 7016) to Kingspan Moonstone (RAL 7035). The feature surround will be changed to Anthracite Grey (RAL 7016) to match the window / curtain walling frames.

I have attached revised elevations showing this change in colour to materials 3 and 9.

Would you like us to deliver revised hard copy prints and a sample swatch of the Moonstone colour?

Regards,

Katherine Mellor,
Architect
