Hello Catherine, Dear Sharon.. I reply in black..

Are the existing railings and gates that delineate the curtilage of the Cottage to be removed? If so, this will need to be detailed within the application description. Yes the railings will be removed to allow for the stable range. As you can see from the above photograph the cottage was originally an agricultural building, with card shed arches and blocked openings are clearly seen and this was converted in the C20th. The railings were bought on conversion.

I still don't have details of the landscaping or the requested information in relation to the Cottage (which is a dwelling in its own right). Gardeners cottage is staff accommodation and the overall landscape of the Hall accommodates this. This is essentially not a private house or setting, however its own access and parking is provided, with a garden to the rear behind the retained garden wall.

Kind regards Catherine

Sharon

Hi Catherine,

You will recall that there was a Covid case at the site when I last visited and so I was not allowed to go into the cottage to assess the impact of the development upon light and outlook etc. I have been unable to visit the site due to on going Covid restrictions. Perhaps someone could provide me with photographs of the cottage, external elevations facing north east and south east? And photographs internally of the rooms which have their windows facing in the same direction (ground and first floor)? Its not idea but will mean that I shouldn't need to go inside and we can hopefully get things moving.

I still don't have a plan which confirms the landscaping and boundary treatments (wall, railings, gates etc.). Could you add this detail to the attached plan please to match up with the details shown on the photo in the HIA (attached)?

Thank you Sharon
