Job 193: Proposed new dwelling adjacent to Quarry Rigg, Pant Lane, Gresford LL12 8SG

Statement about means of foul drainage.

The nearest foul sewer is in Quarry Brow, approximately 50m from the site boundary.

Therefore, the only financially feasible option is to install a biodisc.

The applicant has been advised that a Klargest BA 6 biodisc would be suitable for the proposed dwelling, which must be at least 7m from any dwelling. The proposed siting of the biodisc has been shown on drawing no. (193) 05.
