Hi Sharon

With regard to the above development, we would request that the proposed new gate at point B on the attached plan is a stock-proof pedestrian gate to British Standard BS5709:2018. We would also like a wooden waymark post at point A to ensure that the public keeps to the legal line when using footpath 88. If the applicant or agent need any further information regarding the footpath/structures, please give them my details.

Thanks

Sean
