Hi Sharon,
Please find attached existing and proposed floor plans and some pictures of the shed from various angles marked on a plan.
The proposed hours of operation are the same as the gun shop, 6am-5pm on weekdays and 9am-5pm on a Saturday, no extra staff will be needed as customers will need to visit the shop to pay and show ID, the range will be monitored by cctv, there will be three benches for shooters with up to six people at any one time. As can be seen on the photos and map there is ample parking with good wheelchair access.

Please let me know if you require any more information

Regards

Jonathan Tomlinson
