Klargester Sewage Treatment Plant Quotation

Customer Details

Name:	Graham	Date:	19/08/2021
Company:			
Email Address:	suzannemcloughlin17@yahoo.com		
Contact No:	07549 975022		

Thank you for your enquiry.

We are pleased to provide details of our Klargester Domestic Sewage Treatment Plant.

Basis of Design

The site usage figures are as detailed on the enclosed enquiry sizing sheet. Please check these figures for accuracy and provide details of any changes you envisage.

All the loading figures stated have been taken from the British Water Flows and Loads for small communities in sizing small waste treatment systems.

Site Notes

Percolation Test Completed - 32 mts of Drainage Field Required based on times provided by Graham.

Klargester Sewage Treatment Plant

Quotation

The Biodisc utilizes Rotating Biological **Contactor** technology for small domestic application. This process offers inherent cost and performance benefits with a low carbon footprint.

Effluent Quality Design

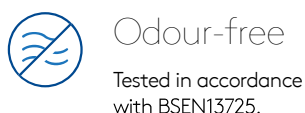

BOD	10 mg/l
Suspended Solids	15 mg/l
Ammoniacal Nitrogen	3.8 mg/l

This should be acceptable for discharge to a watercourse or sub surface irrigation system, but would however, be subject to formal consent from the Environment Agency (this applies to Northern Ireland only). This consent may require that the above effluent figures be varied.

Price and Product Choice

	Quantity	Price per unit	Totals
BC BioDisc - 18 POP - Gravity Outlet - 600 mm Invert	1	£ 6,263.00	£ 6,263.00
Control Panel & Alarm		Included FOC	
Optional HIAB Offload	1	£ 75.00	£ 75.00
Optional Sample Chamber	1	£ 150.00	£ 150.00
TOTAL	3		£ 6,488.00
