There is no capacity at Llay or Darland.

Paula - could you please describe specific projects at these two schools that we can pool a further five contributions to if we have reached 5?

Thanks

Dafydd

Hi Denise,

I'm just finalising reports for Monday's Planning committee and it seems Education have not responded to this one. The proposal could involve in the region of 50 dwellings and the capacity of local infrastructure will inevitably be raised at the meeting. Am I to assume there is adequate capacity within local schools ? If not can I suggest you let me know a.s.a.p.

Thanks
Dave
