Dear Mr Matthew Phillips

Further to our previous conversation on the telephone.

I would like to amend my current application for variation from 9 vehicles to 4 vehicles (increase my current approved application which allows me to operate 1 minibus and 1 car to 3 minibuses of 8 seats each and 1 car).

As previously explained, I currently have planning permission to operate 1 minibus and 1 car since last September 2017. However, Wrexham Council Transport Department have since asked me to increase my planning permission as they have a further two contracts available. They explained that I am currently paying the £500 private hire operators Licence fee which enables me to operate up to 9 private hire vehicles so I might as well apply for a variation to enable me to have the planning permission of 9 vehicles (as I am already paying to operate up to 9 vehicles even though I only really need 4 vehicles).

After discussing this with you and only actually having the need to have an additional 2 private hire vehicles I would like to amend the application to change from the application of variation that I applied for on the 26th June, from 9 vehicles to 4 vehicles (three 8 seater minibuses and one car).

As discussed previously, we very rarely visit the site at Fairfield Farm, Barkers Lane, Borrass, Wrexham, LL12 9TP and do not pick up or drop any passengers at the site, we do not have walk-in trade either. All our bookings are pre-booked. The majority of our work are school contracts provided by WCBC Transport Department.

Yours sincerely

A, Torrence
