

TRIAL PIT SA1

Depth (m)	Strata
0.00-0.40	Medium dense brown and grey silty sandy GRAVEL of fine to coarse subangular limestone and concrete fragments. (MADE GROUND)
0.40-2.20	Medium dense yellow and orange brown slightly silty very gravelly SAND. Gravel is fine to medium occasionally coarse subrounded to rounded of sandstone, siltstone and mudstone.
2.20	Base for soakaway.

Notes

1. Excavation terminated at 2.2m depth for soakaway testing;
2. Pit dimensions 2.3m x 0.8m;
3. Pit sides generally stable prior to soakaway testing;
4. No groundwater encountered.
