Hi Mared

If, for any reason, a temporary closure of the adjacent public footpath is required during the demolition/construction works, the developer will need to arrange this through me.

Thanks

Sean

Hi Mared

We have an unnumbered public footpath running to the west of the site – please see purple line on the attached plan. As long as the development does not encroach onto the path, I don't think we will have a problem.

Regards

Sean

Subject: ENQ/2017/0232 - Sugyn Y Pwll

Hi Neil/Sean

I am dealing with the above pre-application enquiry for the replacement of the existing reservoir with a new service reservoir.

Can you let me know if you have any comments please?

Thanks

Mared
