FAO: Daniel Davies

Dear Mr Davies

Further to your consultation letter dated 15th August 2018 with reference to the above planning application, I wish to provide an update on the Foul Drainage detail.

As requested I have consulted Welsh Water with reference to obtaining a plan showing the public sewer system in the area (copy attached). As you will see from the plan the public sewer system is a considerable distance from the site and therefore a package treatment plant will be the only alternative.

I hope this is satisfactory information, but should you require any further detail then please do not hesitate to contact me.

Kind Regards.

Trevor Mennell
Planning and Architectural Consultant
