Can the attached Bat Survey be added to the above application please

Emma – standard 14 day re-consultation period for this one.

Thanks

Mared

Good afternoon Mared

Please see attached for the protected species activity report, which didn't seem to reveal any problematic activity, but does make certain recommendations about the timing of works

If you consider it necessary to impose any conditions regarding the timing of the works that would be acceptable to us

If you need to discuss any aspect of the application then please do not hesitate to contact us regards

Rich

Subject: Erbistock Hall report

Hi Rich

Please find attached. No bats were found although house martins are present and birds nesting within the ivy of the small shed at the rear.

Thanks

Dave
