

Proposed Development at Afallon Glyn Ceiriog (LL207DN)

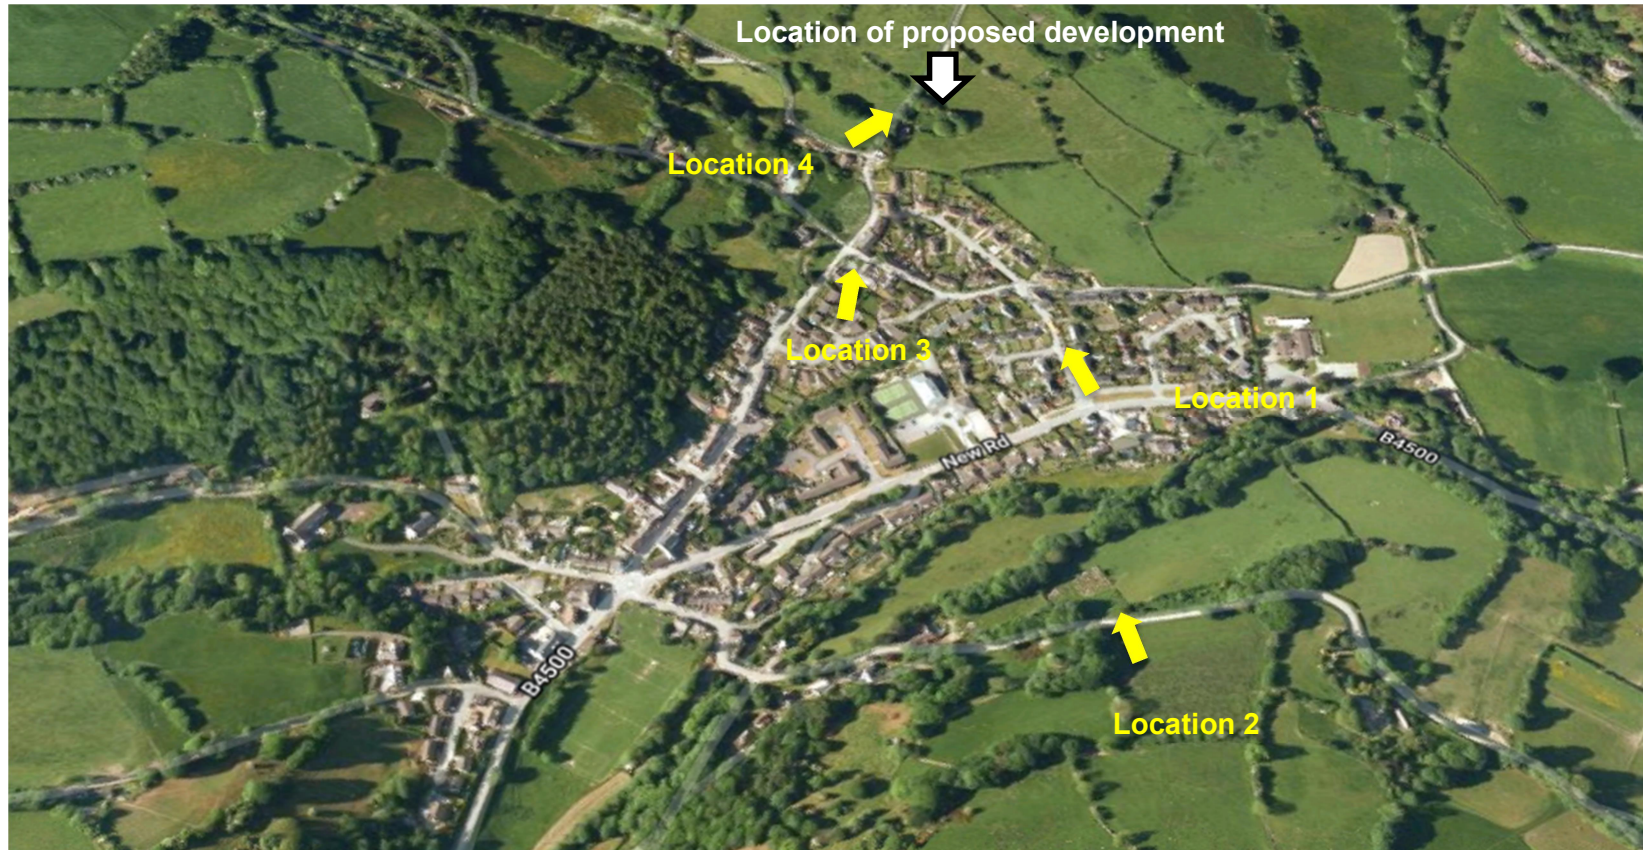

Figure 1

Figure 1 shows the 3 locations where photographs were taken . The proposed development includes at access road and timber garage.

Figure 2

Photograph taken from location number 1

As it can be seen from location number 1, the proposed development will be partly visible

Figure 3

Photograph taken from location number 1 (Zoomed in)

As it can be seen from location number 1, the proposed development will be partly visible, However the trees and vegetation will partially cover the development. Note the box shows approximate location of development.

Figure 4

Photograph taken from location number 2

As it can be seen from location number 1, the proposed development will be partly visible, however the trees and vegetation will partially cover the development and due to the distance from the location the development will not be immediately obvious.

Figure 5

Photograph taken from location number 2 (Zoomed in)

As it can be seen from location number 2, the proposed development will be partly visible. Due to the distance from the location the development will not be immediately obvious.

Figure 6

Photograph taken from location number 3

As it can be seen from location number 3, the proposed development will not be visible as the development will be obstructed by the existing property (Afallon, LL207DN)

Figure 7

Photograph taken from location number 4

As it can be seen from location number 4, the proposed development may be partly visible (minimal), however the trees and vegetation will mostly cover the development .

All hedge rows and vegetation in the development area will remain in place (but maintained as normal due to close proximity to the highway) and not be altered for the proposed development.

Figure 7 shows the existing vegetation/hedgerow to the west of the development.
